to a finepoint, nearly long enough to reach the hock Carriage straight or curving slightly upward, level with the back sufficiently long to permit a straight and free stride.

Chest deep, reaching approximately to the elbows with moderate forechest, extending beyond the point where the shoulder joins the upper arm. Chest is of moderate width so that it does not interfere with forward motion and extends rearwards to well sprung ribs. Loins firm, muscular and of moderate length.

Forequarters. Shoulder blades long, wide, sloping well back, fairly close together at the withers. Upper arm and shoulder blades are approximately the same length, and are joined at sufficient angle to bring the elbows rearward along the brisket in line with the top of the withers. The elbows moving freely incline neither in nor out. Forelegs straight and sinewy. Strong, nearly straight pastern. Feet rather small, very firm, toes arched and close.

Hindquarters:Hindquarters should be wide and powerful with broad, well developed thighs. Hind legs long and muscular from hip to hock; short and perpendicular from hock to ground; well angulated at stifle and hock joints, which, like the elbows, incline neither in nor out. Feet as in front. Angulation of the forequarters and hindquarters should be balanced.

### Coat

Short and fine on head and forelegs. On all other parts of moderate length and flat. Feathering long and silky on ears; on back of forelegs and thighs long and fine, with a pleasing fringe of hair on belly and brisket extending onto chest. Fringe on tail moderately long and tapering. All coat and feathering as straight and free as possible from curl or wave. The Irish Setter is trimmed for the show ring to emphasize the lean head and dean neck. The top third of the ears and the throat nearly to the breastbone are trimmed. Excess feathering is removed to show the outline of the foot. All trimming is done to preserve the natural appearance of the dog.

Color: Mahogany or rich chestnut red with no black. A small amount of white on chest, throat or toes, or a narrow centered streak on skull is not to be penalized.

### Gait

At the trot the gait is big, very lively, graceful and efficient. At an extended trot the head reaches slightly forward, keeping the dog in balance. The forelegs reach well ahead as if to pull in the ground without giving the appearance of a hackney gait. The hindquarters drive smoothly and with great power. Seen from the front or rear, the forelegs, as well as the hind legs below the hock joint, move perpendicularly to the ground, with some tendency towards a single track asspeed increases. Structural characteristics which interfere with a straight, true stride are to be penalized.

### Temperament

The Irish Setter has a rollicking personality. Shyness, hostility or timidity all uncharacteristic of the breed. An outgoing, stable temperament is the essence of the Irish Setter.

## Revised Standard For Irish Setters

### General Appearance

The Irish Setter is an active, aristocratic bird dog, rich red in color, substantial yet elegant in build. Standing over two feet tall at the shoulder, the dog has a straight, fine glossy coat, longer on ears, chest, tail and back of legs. Afield, the Irish Setter is a swift-moving hunter, at home, a sweet natured, trainable companion.

At their best, the lines of the Irish Setter so satisfy in overall balance that artists have termed it the most beautiful of all dogs. The correct specimen always exhibits balance, whether standing or in motion. Each part of the dog flows and fits smoothly into its neighboring parts without calling attention to itself.

### Size. Proportion. Substance

There is no disqualification as to size. The make and fit of all parts and their overall balance in the animal are rated more important. Twenty seven inches at the withers and a show weight of about 70 pounds is considered ideal for the dog; the bitch 25 inches, 60 pounds. Variance beyond an inch up or down is to be discouraged.

Proportion: Measuring from the breastbone to rear of thigh and from the top of the withers to the ground the Irish Setter is slightly longer than it is tall.

Substance: All legs sturdy with plenty of bone. Substance in the male reflects masculinity without coarseness. Bitches appear feminine without being slight of bone.

### Head

Long and lean, its length at least double between the ears. Beauty of head is emphasized by delicate chiseling along the muzzle, around and below the eyes, and along the cheeks.

Expression soft and alert. Eyes somewhat almond shaped, of medium size, placed rather well apart, neither deep set nor bulging. Color, dark to medium brown. Eye set well back and low, not above level of eye. Leather thin, hanging in a neat fold close to the head, and nearly long enough to reach the nose.

The skull is oval when viewed from above or front; very slightly domed when viewed in profile. The brow is raised, showing a distinct stop midway between the tip of the nose and the well-defined occiput (rear point of skull). Thus the nearly level line from occiput to brow is set a little above, and parallel to, the straight and equal line from eye to nose. Muzzle moderately deep, jaws of nearly equal length, the underline of the jaws being almost parallel with the top of the muzzle. Nose black or chocolate; nostrils wide. Upper lips fairly square but not pendulous. The teeth meet in a scissors bite in which the upper incisors fit closely over the lower, or they may meet evenly.

### Neck. Top line and Body

Neck moderately long, strong but not thick, and slightly arched; free from throatiness and fitting smoothly into the shoulders. Top line of body from withers to tail should be firm and incline slightly downward without sharp drop at the croup. The tail is set on nearly level with the croup as a natural extension of the top line, strong at root tapering

## SCHEDULE OF POINTS FOR DIVISION 7

Division 7 is comprised of: Arizona, New Mexico, Oklahoma, Texas.

The Points towards a Championship shall be awarded to the Winners Dog and Bitch of each breed or variety based on the actual number of dogs or bitches competing in that breed or variety.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Breed or Variety, the dogs of both sexes that have been entered for Best of Breed or Variety competition and that have been defeated in such competition, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Opposite Sex to Best of Breed or Variety, the dogs of its own sex that have been entered for Best of Breed or Variety competition that have been defeated in competition for Best of Opposite sex, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

After points have been computed for Winners Dog and Winners bitch subject to the above two stipulations, the dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater.

In counting the number of eligible dogs in competition, a dog that is disqualified, or that is dismissed, excused, or ordered from the ring by the judge, or from which all awards are withheld shall not be included. Any dog which shall have won fifteen points shall become a Champion of Record. If six or more of said points have been won at two shows with a rating of three or more championship points each and under two different judges, and some one or more of the balance of said points shall have been won under some other judge or judges than the two judges referred to above.

### **PROCEDURE FOR JUDGES TO FOLLOW**

(Points mentioned must be observed in each instance.)

1. All absentees in each class in this book must be marked by the judge.
2. The judge alone must mark this book and hand out the ribbons. Under no circumstances can this be done by the steward or anyone else.
3. Ribbons must be presented in the ring. If the owner or handler has left the ring before the ribbons are given out, do not follow him, send an attendant to bring him back into the ring. This is important.
4. Be sure and line up the dogs, first, second, third and fourth, before handing out the ribbons. The public is entitled to know the order in which the dogs will be placed.
5. Do not forget to sign your name at bottom of this page to meet the certification that judging has been made in accordance with the above requirements.
